Celebrate The Fall With These Seasonally Inspired Spa Treatments

With cooler days in the forecast and Thanksgiving flights to book, there's no question that fall is here. If you're craving a little more pumpkin spice than your morning latte can provide, don't worry, these fall-inspired treatments are here to help you celebrate the new season.

The Spa at Balboa Bay Resort (Newport Beach, CA) is offering a Pumpkin Latte Hydration Facial (\$145). This treatment uses a puree of fresh pumpkin to rejuvenate dry skin and promote moisture balance with vitamin E and Omega 9. Another autumn-inspired facial the spa is offering is the Cranberry Pomegranate Radiance Facial (\$145), which uses Vitamin C and polyphenols to revitalize, protect, and improve skin tone. Containing flax seed, sunflower, and sesame oils, the mask is designed to reduce signs of aging and restore radiance.
